

Introduction of Nansho

We introduced our school to some people in the U.S. in English to improve our English presentation skills. We learned how to explain what we usually do here and took videos of our presentations. After that, the people in the U.S. watched the videos and gave us some feedback in English.

We can't easily go to other countries because of the COVID-19 situation, but we were so happy to be given a lot of positive feedback from them.

Now I introduce our teacher, Masaki Sato.
